EBTRON

Precise Airflow Measurement

Accurate, repeatable thermal dispersion airflow measurement.

Badger Meter

Flow and Energy (BTU) Measurement

Reliable, accurate liquid flow and energy measurement.

ATI

*Water and Wastewater
Quality Monitoring*

Analytical sensors & monitoring solutions for water & wastewater.

s::can

*Water and Wastewater
Quality Monitoring*

Intelligent. Optical. Online.

Sage Metering

Gas Flow Measurement

State-of-the-art, award-winning features and reliability.

Air Sniper

UV-C Sanitization

Advanced supplemental air sanitization.

LDI ROW

Non-Contact Oil Detection

Real-time Detection System for Oil on Water.

MSA

Fixed Gas Detection

Accurate, reliable gas detection used throughout the world.

Fresh-Aire UV

UVGI Disinfection (UV-C)

Buildings benefit from Ultraviolet Germicidal Irradiation (UVGI).

Ensuring quality in the products and services we provide is our number one goal.
